

**Instructor:** Kal Honey

**Course:** S24AUL, Urban Landscape - Mixed / Open Media

## **MATERIALS LIST**

This course has a fair bit of leeway as far as the materials you choose to use go. The list below is divided into “Core” materials that everyone will need, and “Personal Choice” materials. For the first few weeks, our “in-class” activities will be more structured, so you’ll need the core materials for those days.

### **Core Materials:**

- Phone (for camera)
- Optional: printer for printing reference photos
- Sketchbook and/or notebook
- Drawing pencils and erasers
- Some sort of black drawing media in stick form: conte, pastels, charcoal, graphite sticks, etc.
- Some sort of colour drawing media: coloured conte, chalk pastels, colour pencils, etc.
- 18 x 24” pad – cartridge, bond, manilla, newsprint, etc. OR a large-ish sketchbook for in-class exercises
- Water-based paints of some kind (acrylics, watercolour, gouache, etc.)

### **Personal Choice Materials:**

Really, any materials — media, surfaces, tools, etc. you have and would like to use to further develop your ideas...

If you decide to work in collage, your materials will be a lot different than a watercolourist.
