Children express their imagination while learning fundamental art skills and colour mixing techniques. Young creatives explore a wide variety of materials and projects include fun and inspiring topics that kids get excited about! Things like cake, stuffies, emojis and planets, self-portraits, and of course friendship are all things to look forward to in this class. A special project for this class is a 'kipple' collage. Children are encouraged to bring in as many colourful bits, toy parts, pieces, action figures and doo-dads as they can, to create a pop art piece keepsake that speaks to the things they loved to play with (but are now no longer used and are just taking up space in your house). Small plastic parts only, no greater than 4 ½" long and 1½" deep. This is a great way to use up things you sometimes accidentally step on, don't really want to throw out but have no place for. All materials (besides 'kipple') are included.

This engaging art course aims to cultivate a clear understanding of fundamental artistic concepts such as line, form, texture, colour combination, and dimension through innovative and relaxed mixed media projects. Each class will provide students with the opportunity to create a unique piece of artwork. Our experienced instructor will offer clear guidance and focused prompts to help students learn various techniques while becoming familiar with different painting and crafting materials. Through targeted exercises, students will also gain a grasp of essential artistic terminology. For example, one project will explore projection and shadow casting, allowing students to creatively transform objects related to this theme, deepening their understanding of light, shadow, and space. Another project will challenge students to shape a single piece of wire into a portrait contour, emphasizing the concept of creating form with just one continuous line. Additionally, students will reshape flat cardboard into three-dimensional forms, creating textured surfaces that enhance their understanding of three-dimensional structures and architectural design. Rather than focusing solely on traditional drawing techniques, this course encourages students to broaden their appreciation of various visual art elements. By doing so, they will build a solid foundation that allows them to translate abstract concepts into practical skills, enhancing their overall art-making process.

The very tactile quality of the material stimulates a recall that many of us can trace to childhood. Many seldom fiddle with string or yarn but a great many of us do and for those that want to get in touch with the creative possibilities of fibre art, come and join this class to make something beautiful. Feel the sense of serenity this medium can bring while making a Van Gogh inspired image of your choice. Observe the beauty and movement you can create and see how the look mimics brush strokes and allows for a fine variety of colour. Roll, curl, spin or drag to adhere onto your canvas as your fingertips get their thrills. You may discover something your cat has known all along! All materials included.

It was a rainy day in Artsyville... and all the kids rejoiced! - By the dozens they ran inside to gather their favourite art supplies. Once they settled in their seats to plan out all their artsy feats, they quickly came to realize a rumbling, gurgly sound of size! 'How could this be?', said Alex Magee, who only stood but three-foot-three, 'This can't be my hungry tummy, I just ate my lunch from mummy... we all just ate our lunch, we have no need for further crunch'. But still, the sound persisted, until the group insisted: 'Teacher what is this gurgly sound? We can hear it all around! The teacher spoke with words of wisdom and calmly answered, as they listened "this sound is the creative spirit, who wanted you to loudly hear it! Let's all answer with our paints and brushes and make food art until it hushes! So, on they went and a good thing too, for the art they made was a serving for two! The spirit was satisfied, and the kids fell calm. They too were satisfied as life went on. Join this P.A. Day camp for an amazing food inspired art experience. Children will be led by expert instructors and child and youth care workers who love art. All materials are included.

In this collaborative and artistic activity, families will create a beautiful watercolor floral family photo frame by adding their own unique touch to each other's work. Each family member starts with their own photo frame, painting a small flower on a drawn circle. Then, the frames are passed around, allowing each person to contribute additional flowers and leaves to one another's artwork. This creative exchange continues until everyone feels the garlands are complete, forming a vibrant photo frame that captures their shared creativity and teamwork.

RESIDENT GROUPS ETOBICOKE QUILTERS GUILD

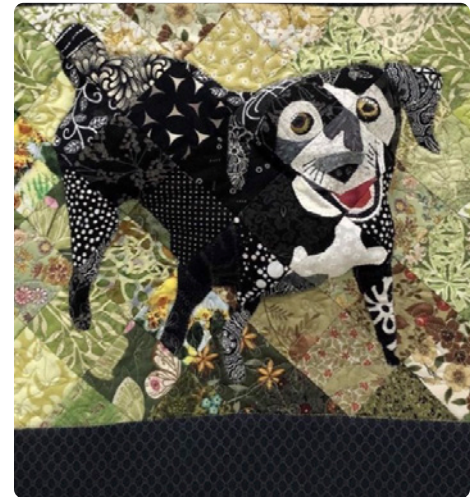

Visit our website for details:
www.etobicokequiltersguild.com

Formed in 1975, the Etobicoke Quilters' Guild is a thriving group of people who gather regularly to express their creativity through all aspects of quilting. Members have access to our bright and spacious fibre art studio two days per week, where they can work on projects in a supportive and helpful environment.

EQG has almost everything a quilter could ask for: layout tables, cutting boards, rulers, rotary cutters, and sewing machines – just bring your fabric and ideas! We offer a number of different programs and learning opportunities across a variety of levels of ability. Bring your own projects or learn some new skills. The popular Learn to Quilt Program will teach you how to manage your project to achieve great results. Join as a beginner or brush up on rotary cutting and machine piecing skills. Layering, basting and quilting will also be demonstrated and practiced.

The Etobicoke Quilters' Guild is proud of its "Comfort Quilt" program which began in 1989. We create unique and beautiful quilts and donate them to charities. Last year, we donated 200 quilts! It's a great way to practice and make a difference in the community.

As part of your membership, you can join our monthly meetings where we have speakers from all walks of the quilting world. Tea and coffee are provided and the library is open for your perusal. Still not convinced you should join us? Feel free to pop into Studio C on a Monday or Wednesday between 9am and 4pm or join our monthly meeting.
